

Math 107: Homework 9

Due Tuesday, 5/2 start of class.

1. Read your textbook “Aaaaaaaaaaagh: The Curry Paradox” and “The Curve That Shock The World” and “Mary’s Paint Can Conundrum”.
2. Find the logic fallacy in this statement: “Penguins are black and white; some old TV shows are black and white. Therefore, some penguins are old TV shows.”
3. How many faces can you see in this picture?

4. How many cubes are there in this picture total?

5. On top, you see shapes labeled *A* to *L*. In the bottom, you see their shadows from three different directions labeled from 1 to 12. Match the shape with the correct shadows. (picture on next page)
